

Informational Meeting Subcommittee Minutes

Lana & I did not meet at the Town Office.

A question regarding an addition of a Variance to be added to Ordinance received from Ted Dawickiwi.

Sent question to James Gammon to be added to this evenings agenda.

Requested from Jim Longacre the complete Power Point Presentation that was presented to the IWOC and Sumner Residents. Received and email to all IWOC members and to Susan at Town Office today.

Does IWOC want copy in folder at Town Office?

Chris O'Neil "data that supports the health and safety issues was provided to the committee. Are the data sources going to be provided on the web site?" Does IWOC want this if so I will email Safety to Town Office for conversion to PDF for Mark to put up on web site?

Mailings for the Mike Rogers presentation on Tuesday, August 30th were mailed yesterday. Diane Todd and I got the flyers ready for mailing at the Town Office.

I was not able to do it on Tuesday due to other commitments.

Lana and I could use a couple of volunteers to help set up chairs and tables for Tuesday's night's meeting. Cyndy Norton said we can use the screen & table in the kitchen to set up for Mike to make his presentation on. How does IWOC want tables & chairs set up? The same way as for the Moratorium Vote back in June, please advise.

Future mailings....Need Educational Flyers/Posters...."*Voting NO on the Wind Power Ordinance = YES to unregulated Industrial Wind in Sumner*"

This needs to be addressed ASAP!!! I and other IWOC members are running into this nearly every day. People do NOT understand still, they think in order to keep industrial Wind out of Sumner they need to vote NO on the ordinance. We need to get the CORRECT IWOC approved information out to the citizens as accurately and frequently as possible. If we do NOT correct the citizen misconception all our work on the Ordinance will be for nothing.

What does IWOC want for future Informational Meetings and when?

Kathy Emery & Lana Pratt
